Medical Physics Seminar

Monday, February 27, 2017

1325 HSLC — 4:00 PM

Jason Rownd, MS
Senior Medical Physicist
Medical College of Wisconsin
Department of Radiation Oncology

**Clinical Workflow of HDR Brachytherapy in the Treatment of
Cervical Cancer: Tandem and Ring Applicator**

Many individuals are part of the team responsible for the care and treatment of our brachytherapy patients. This talk will focus on the timeframes for a typical HDR brachytherapy treatment, with special focus on the medical physicist's duties. These activities include imaging, contouring, planning and QA.

1325 Health Science Learning Center (HSLC) 4:00 - 5:00 P.M.
